

2011
Legacy

Love. It's what makes a Subaru, a Subaru.

SUBARU

Legacy 2.5GT Limited in Ruby Red Pearl.

Legacy 3.6R Limited with Off-Black leather, optional moonroof and Navigation System Package.

Mingle work with pleasure
every time you commute.

Begin each day with the exception to the rule. Begin it with a vehicle that mingles spaciousness with responsiveness, power with responsibility and capability with captivation. A vehicle that inspires you with confidence because of its renowned safety, while at the same time begs you to push it further, and to relish every curve life throws at you. Begin each day with the 2011 Subaru Legacy, and its intelligent solutions to all of your driving needs, and you'll know what a daily commute should really feel like.

Love every mile.
Live every moment.

Getting out there. Getting going. Getting to where your life is lived. Whether you're taking a new turn or simply taking a break, we build every Subaru to help you take it all in. With Symmetrical All-Wheel Drive, you have the stability and control to drive with confidence where you want, when you want. Smart features help you do more of what you live for, and award-winning safety helps you do it with assurance. It's the joy of having a car that you don't just love to drive, but one built for life. And we think that's why owners always tell us, "I love my Subaru."

Love. It's what makes a Subaru, a Subaru.

“The only mainstream midsize sedan
that can call itself a ‘sport sedan’.”

—Motor Trend

Legacy 3.6R Premium in Steel Silver Metallic with optional moonroof.

Quicker Response

There are only four small patches of rubber that keep you in control of your vehicle. The more your tires are engaged the more control you have. Subaru keeps more power routed to all four tires than some other systems that only fully engage as a reaction to slippage that has already occurred.

Better Balance

Every Subaru is built for AWD from the ground up. This allows us to build a balanced, symmetrical drivetrain that is free of the extra components some other systems need to get power to all four wheels. This symmetry and balance means stability that helps make driving your Subaru safer and agility that makes it more fun.

All wheels. All weather. **All the time.**

Subaru Symmetrical All-Wheel Drive

Wherever, whenever, or however you drive, control and confidence come from one place—where your tires meet the road. Subaru has spent nearly 40 years developing a system to get the most of those few points of contact, for traction and control that can make curves more exciting, acceleration more dynamic, and your ability to avoid danger more surefooted. Discover the driving satisfaction that the balance and stability of Subaru Symmetrical All-Wheel Drive delivers, knowing that this is just one of the many ways a Subaru can inspire.

Efficient Design

Because power in some systems must route through extra components, these systems not only sacrifice efficiency, but also can incur more wear and tear. Subaru routes power directly from the engine to all four wheels to keep components—and frictional power losses—to a minimum.

Learn more about the benefits of Subaru AWD.
subaru.com/awd

Low profile. **High performance.**

Subaru Boxer Engine

Better engines start with better ideas. That's why we think about engines a little differently. And it's why every Subaru is powered by the SUBARU BOXER® engine. It features a unique horizontally opposed design and symmetrical layout. The design advantages it has over "V" or inline engines means it provides powerful, yet smooth acceleration, while at the same time helping to create a more stable and balanced vehicle. It's an insightful difference that has the power to make driving more engaging.

Horizontally Opposed Design

The pistons move in 180-degree opposition to each other on a horizontal plane, so each naturally cancels out the vibration of the piston opposite it.

Durable Construction

The engine's flat design is inherently rigid, and reduces the amount of vibration that "V" or inline engines—with more upright pistons—are subjected to during operation.

Lower Center of Gravity

The flatter profile and perfectly symmetrical design of the engine block, and the fact that it sits lower in the chassis, make the overall vehicle more stably balanced and resistant to side-to-side motion than other designs.

Smoother Operation

Step on the accelerator and the revs come on smooth. While there's plenty of power when you need it, it never compromises your comfort or control.

Increased Durability

An engine subjected to less vibration lasts longer. It's no wonder 95% of Subaru vehicles built in the last 10 years are still on the road today.[1]

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.

Greater Agility

The vehicle responds more quickly to changes in direction, which gives a feeling of tightness in turns. And it's less likely to become unstable during maneuvers, giving you an increased feeling of being in control at all times.

Find out more about how our engine compares.
subaru.com/boxer-engine

Legacy 3.6R in Ruby Red Pearl.

Bringing power and control into balance.

Ventilated Disc Brakes | Quick-ratio Steering | Double-wishbone Rear Suspension

Legacy 2.5i Limited in Sky Blue Metallic with accessory Chrome Trunk Trim.

Dynamic Handling

Throw the Legacy into a corner, and forget everything you think about driving a spacious sedan. With its unique design advantages, the Legacy doesn't sacrifice athleticism to give you a roomy and comfortable interior. Subaru Symmetrical All-Wheel Drive holds tight to every inch of asphalt—carving hairpins with surefooted predictability. Its chassis features a stiff sub-frame, which, combined with its lower center of gravity, makes for an exceptionally stable platform. All this adds up to a vehicle that reacts to changes in direction quickly and effortlessly, which means every maneuver you make—from s-curves to lane changes—can be executed with inspiring precision.

Responsive Suspension

Years of experience competing in the automotive acrobatics of rally racing have helped Subaru develop a suspension system that communicates with the driver. Its 4-wheel independent design maximizes the feel you have for the road. While the double-wishbone rear deflects the worst of the bumps without unsettling the chassis. With MacPherson struts up front, it's a tight, yet supple ride that always leaves you in touch and in control.

How do you define **performance?**

Refined.

3.6-liter 6-cylinder

A wealth of ultra-smooth power at the ready. That's the hallmark of the 3.6-liter 6-cylinder—the largest SUBARU BOXER® engine available. It produces 256 horsepower and 247 lb-ft of torque, moving the Legacy 3.6R models with effortless confidence over the road. This commanding engine is matched with the ease of a 5-speed automatic transmission with manual mode and paddle shifters, which allow you to easily control shifting for more direct access to engine power.

Thrilling.

Turbocharged 2.5GT

For those who desire the kind of lift in their day that only high performance can provide, the 2.5-liter 4-cylinder in the Legacy 2.5GT Limited is ready to oblige. Named one of the industry's 10 Best Engines[1], it features a large intercooler and a turbocharger optimized for quick spooling. When you engage, you'll feel the responsive throttle and feel the turbocharged punch of 265 horsepower and 258 lb-ft of torque. And a standard 6-speed manual transmission with performance-oriented gearing keeps you always in control of the action.

1 2010 *Ward's* 10 Best Engines.

Efficient.

Up to 31 MPG

The 2011 Legacy 2.5i offers more value than any previous generation Legacy. Its 4-cylinder SUBARU BOXER engine generates 170 horsepower and 170 lb-ft of torque. Ample power for confident driving. What's more, when paired with Lineartronic™ CVT (Continuously Variable Transmission), you can get 31 miles to the gallon[1]. With the 18.5-gallon tank, you'll spend more time enjoying your getaways and less time filling up. What's more, every mile will be quiet and smooth, thanks to the advanced design of the 2.5i.

1 EPA highway estimate. Actual mileage may vary.

Advanced.

Lineartronic™ CVT

Experience smooth performance and save money at the same time. Lineartronic™ CVT is an innovative technology that can reduce the amount you spend on fuel. Available on Legacy 2.5i models, it eliminates the need to shift, thereby preserving momentum. And your engine always stays in its optimal rev range for maximum efficiency. In automatic mode, it infinitely adjusts the transmission to match your needs. Or use the paddle shifters and 6-speed manual mode for quick access to power and torque on the fly.

As sharp as it is comfortable.

Every Legacy passenger enjoys a spacious cabin with generous room to make things comfortable. Dual-zone automatic temperature controls, convenient steering-wheel-mounted controls and a 10-way adjustable driver's seat are available to let you customize your environment with ease.

Legacy 2.5GT Limited with Off-Black leather and optional Navigation System Package.

Technology Features

The available 440-watt, 9-speaker harman/kardon premium audio system immerses you in your music with stunning clarity. Bluetooth hands-free calling comes standard, as well as XM® Satellite Radio[1], which offers the possibility of vast programming choices wherever your drive takes you.

1 Activation and monthly subscription sold separately. Includes 3-month trial subscription. See your dealer.

Voice-activated Navigation System

Finding that perfect drive is easier, thanks to the available voice-activated navigation system. Program destinations and find points of interest using the 8" high-res touchscreen or voice commands. The system also enhances your audio experience by allowing iPod® and USB connectivity, as well as Bluetooth streaming audio. You can even listen to audio playback from your DVDs.

We love the things that matter most.

Building Cars That Last

Life is too important to slow down with a car you can't rely on. That's why we build each of our vehicles with the highest standards of manufacturing, with designs that are inherently tough, and with engineering that can keep you going—all with quality and consistency. This commitment is why 95% of all the vehicles we've built in the last 10 years are still on the road today.[1] It's also why Subaru vehicles keep their value so well. In fact, Subaru was named the number one automotive brand for residual value by ALG for 2010[2].

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009.
2 Based on ALG's 2010 Residual Value Awards Brand Rankings for Mainstream Brands.

Supporting Partners That Care

Subaru has spent decades building relationships with dozens of organizations that believe in building a cleaner, greener, and more hopeful world as much as we do. That's why you'll see us supporting events like Dining Out for Life, or promoting responsible recreation with Leave No Trace. Our year-end Share the Love sales event raises money for the ASPCA, Habitat for Humanity, National Wildlife Federation, Meals on Wheels and Boys & Girls Clubs of America. With the help of our generous customers, in 2010 we donated almost five million dollars to these worthy causes. We hope to see even more love in 2011.

Protecting Your Investment

Once you're part of our family, we'll be there for you. Every Subaru comes with 24-hour roadside assistance for 3 years or 36,000 miles. If you have trouble on the road, a tow to the nearest Subaru dealership and other services are just a phone call away. And to protect you over the long haul, we offer Subaru Added Security®—extended service agreements and maintenance plans that will help protect your car for up to 7 years or 100,000 miles. Subaru Added Security offers the only mechanical and maintenance plans backed by Subaru of America, Inc., and because we've been backing them for more than 25 years, they're agreements you can trust. Your dealer has full coverage details.

Ensuring You're Fully Covered

We know you love your Subaru, but sometimes accidents happen. Subaru Equity Shield™ GAP could help you avoid further sorrow by paying all or most of a possible difference between what your insurance company covers for your Subaru that was totaled, or stolen and not recovered, and what you still owe in payments. It will even cover your deductible for up to $1,000. Also, being part of the Subaru family may save you money on some types of insurance, such as auto and homeowners. Subaru owners may be eligible for exclusive rates through Subaru Advantage Insurance by Liberty Mutual. Find out more at subaru.com.

It’s more than engineering. It’s a promise.

The only manufacturer with
2010 IIHS Top Safety Picks for all models.[1]

—Insurance Institute for Highway Safety (IIHS)

Discover in-depth the
Subaru safety advantage.
subaru.com/safety

Subaru Active and Passive Safety

You’ll find our commitment to safety in almost every aspect of Subaru design. From a uniquely poised All-Wheel Drive system, to a one-of-a-kind engine that can help protect you in an accident, we’ve created each of our vehicles with active and passive safety systems that make a Subaru—in a worst-case scenario—one of your best possible bets. This passionate commitment to your confidence was the reason Subaru was the only manufacturer to have each of its vehicles named a 2010 IIHS Top Safety Pick[1], and why we continue to win safety accolades year after year.

Stopping Power

Powerful and reliable vented disc brakes are teamed with advanced technologies to help you stop short of danger. Antilock brakes help make sure you don’t lose traction, and the advanced Brake Assist system helps ensure maximum pressure is applied to the brakes as quickly as possible in an emergency situation.

Increased Awareness

Before you can avoid danger, you have to see it coming. The Legacy features the available rear-vision camera. This feature gives you a clearer view of the area behind your vehicle, so you can be in charge of your surroundings.

Exceptional Control

Safety begins with avoidance. The traction and balance of Subaru Symmetrical All-Wheel Drive and the stability of the SUBARU BOXER® engine provide you with the outstanding control you need to react to hazards. Every Legacy also comes standard with VDC electronic stability control, which can detect a loss of control and intervene to help keep you on your intended path.

All-around Protection

Our Ring-shaped Reinforcement Frame is exceptionally strong for maximum resistance to impact energy, while its unique configuration helps divert that energy away from occupants. Also, front, front-side and side-curtain airbags[2]—standard on every Legacy—surround outboard occupants in the event of a crash to further help prevent injury.

1 Ratings based on Insurance Institute for Highway Safety’s (IIHS’s) 40-mile-per-hour frontal crash test, 31-mile-per-hour side-impact test, 20-mile-per-hour rear-impact test, and roof-strength test. For more information, contact IIHS or visit their website at www.iihs.org.
2 Always wear seatbelts. Children should be properly restrained in the rear seat.

Legacy 2.5GT Limited in Steel Silver Metallic.

You'll find yourself looking for long-cuts.

Legacy 3.6R Limited in Steel Silver Metallic.

Make your Subaru truly yours.

All-weather Floor Mats

Custom-fitted, heavy-gauge protective mats. Helps protect vehicle's carpet from sand, dirt and moisture.

Not intended for use over top of carpeted floor mats.

Short-throw Shifter

Significantly reduces shift throw lengths for crisper shifts and sportier driving feel.

Fog Lights

Casts a low and wide beam of light to enhance vision in inclement weather.

BlueConnect®

Bluetooth® wireless technology with advanced voice recognition allows you to make and receive calls, store phonebook information, and recognize up to seven different cell phones.

Some phones may not be compatible.
Details at subaru.com/bluetooth.

Trunk Tray

Helps protect trunk area from stains and dirt while providing a surface that helps reduce shifting of cargo while driving.

Puddle Lights

L.E.D. lights activate when vehicle doors are unlocked using the keyless entry. A soft glow illuminates the ground, aiding entry and exit of the vehicle.

Auto-dimming Mirror with Compass and HomeLink®

Mirror darkens when headlights are detected from behind the vehicle. Includes a compass and three HomeLink buttons that are programmable for most garage-door openers and other HomeLink-compatible devices.

Side Window Deflectors

Let the fresh air in while helping to keep the weather out. Deflector design includes integrated chrome insert to match window frame trim.

Side Window Deflectors may not be legal in all states. Please check the laws of your state.

Body Side Moldings

Attractive color-matched moldings coordinate with the styling of the vehicle, while helping to protect doors from unsightly dings.

Available in late Fall 2010.

Remote Engine Starter

Allows vehicle to start by pushing a button from the convenience of home or the office (up to 400 feet away depending on obstructions) so that the vehicle's interior temperature is more comfortable upon entry. Remote confirms when vehicle engine has been started.

Trunk Spoiler

Sleek, low-profile design adds just the right amount of attitude to your Legacy. Comes pre-painted and ready to install.

Splash Guards

Help protect the vehicle's paint finish from stones and road grime.

1 2011 Subaru Legacy non-turbo 2.5-liter models achieving a Partial Zero Emission Vehicle (PZEV) rating by the California Air Resources Board are available in all 50 states. Only those registered in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, New Mexico, New York, Rhode Island and Vermont are eligible for the 15 years/150,000 mile emission warranty. See your warranty maintenance booklet for additional information. 2 2011 EPA fuel economy estimates. Actual mileage may vary. 3 Requires optional All-Weather Package. 4 Available as an accessory when ordered individually. XM® Satellite Radio hardware standard as part of harman/kardon® Audio Package. Activation and required monthly subscription sold separately. Includes 3-month trial subscription. See your dealer. 5 The Supplemental Restraint System (SRS) affords the driver and the front passenger additional protection in moderate to severe frontal and side-impact collisions and outboard 2nd-row passengers additional protection in moderate to severe side-impact collisions. This system provides supplemental protection only, and seatbelts must be worn in order to avoid injuries to out-of-position occupants upon airbag deployment and to provide the best combined protection in a serious accident. Children should always be properly restrained in one of the rear seats. See Owner's Manual for recommended seating position. 6 Requires optional moonroof. 7 With vehicle stopped and parking brake engaged.

The earth isn't disposable.
Neither is a Subaru.

The Outback may be uniquely designed for getting out there, but at Subaru, we put just as much emphasis on not leaving it out there. First, we build vehicles for maximum durability, because more time spent on the road is less time in a landfill. It's why 95% of the vehicles we've built in the last 10 years are still on the road today.[1] We also work diligently to cut waste before the car ever rolls out of the factory. In 2004, Subaru of Indiana Automotive, Inc. (SIA) became the first manufacturing facility in the U.S. to reach zero landfill status—nothing from its manufacturing efforts ever goes into a landfill. Subaru facilities in Japan have achieved similar goals in reusing and recycling. And, because clear skies are just as important as clean landscapes, the Outback is one of the few SUVs to achieve Partial Zero Emission Vehicle—PZEV[2]—status. It achieves such cleanliness without the negative environmental impact required to manufacture many vehicles with battery-based drive systems, and without compromising performance and versatility.

Find out more about our efforts to keep it cleaner and greener.

© 1996 Forest Stewardship Council

These brochures were printed with vegetable-based inks and produced using a "Green Printing Process" and FSC standards. The Forest Stewardship Council (FSC) is an international organization that brings people together to find solutions which promote responsible stewardship of the world's forests and environments.

By producing these brochures in a green way rather than by traditional methods, we saved 128 trees preserved for the future; 369 lbs water-borne waste not created; 54,288 gallons wastewater flow saved; 6,007 lbs solid waste not generated; 11,827 lbs net greenhouse gases prevented; 90,524,490 BTUs energy not consumed.

1 Based on R. L. Polk & Co. registration data in the U.S. 1999 to 2009. 2 2011 Forester, Legacy and Outback 2.5L non-turbo models certified as Partial Zero Emission Vehicle (PZEV) are available in all 50 states. Only those sold and registered in California, Connecticut, Maine, Maryland, Massachusetts, New Jersey, New Mexico, New York, Rhode Island and Vermont will be eligible for the 15 years/150,000 mile emission warranty.
