CATÁLOGO DE PARTES

PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página web: www.auteco.com.co accediendo al link repuestos/accesorios. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco-Kawasaki.

This grid covers:
Parts List Information

PARTS LIST INFORMATION

This parts catalog lists parts and sub-assemblies provided as spare parts. When it becomes necessary to replace parts, always use KAWASAKI GENUINE PARTS. Strict inspection assures quality and performance of KAWASAKI GENUINE PARTS.

HOW TO ORDER PARTS

When ordering parts be sure to use the catalog for the correct model and year of the vehicle. Include the following items exactly as listed in this catalog on your parts order.

- Part Number
- Part Name
- Color Code
- Specify the color using both color code (which is part of the part number) and name when ordering painted parts.

Example: 51001-5074-8G TANK-COMP-FUEL, EBONY

Parts not shown disassembled in the illustrations of this parts catalog are not sold separately; only complete units or next higher assemblies illustrated, are supplied as spare parts.

EXPLANATION OF PARTS CATALOG FORMAT

A. Year & Model Code

This title describes the year(s) and model(s) contained in this catalog.

B. Part Group Title

A representative name for the group of parts illustrated on this page.

C. Reference Number

The reference number is listed on the illustration and parts list. It is the link between the illustration and the parts list.

D. Part Number

The number assigned to a part for the purchase of parts ordering.

1. Part Number (New Structure): 00000-3000-00 or 00000 0000 000 (Old Structure): 00000-000-00

Color Code
Production Number
Extension Code

2. Standard Hardware Number

000 0 0000

Size Number

Material or Surface Treatment Code (Alphabet)
Item Number

E. Description

Describes the main function of the part and includes data such as size, number of teeth, color, etc.

List of Abbreviations

(+)	Plus	HEX	Hexagonal	REF	Reference
(-)	Minus	ID	Inside Diameter	RH	Right Hand
&	And	KPH	Kilometers per Hour	RPM	Revolutions per Minute
2ND	Second	L	Link	RR	Rear
3RD	Third	LS	Length	STD	Standard
4TH	Fourth	L	Less	T	Teeth
AR	As Required	LH	Left Hand	T	Thickness
ASSY	Assembly	LWR	Lower	U/S	Undersize
CA	Cut Away	MM	Millimeter	UPP	Upper
CNT	Center	MPH	Miles per Hour	V	Volt
COMP	Complete	NA	Not Available	W	Watt
D	Degree	O/S	Oversize	W	With
FR	Front	OD	Outside Diameter	WD	With Decal
G	Gram	PR	Ply Rating	WOD	Without Decal

F. Quantity

Specify how many of a part are required at the indicated position on the illustration.

G. Spec Code

Indicates which parts are used for a specific vehicle year and model.

H. Additional Information

Additional information is shown as follows:

- (OPTION) Part is not installed as original equipment, but is available separately.
- (RACING USE ONLY) Part is to be used for closed course racing only on this vehicle.
- (OFF-ROAD USE ONLY) Part is for off-road use only on this vehicle.
- (LOCAL PROCUREMENT ITEM) Part is obtainable from local source. No part number is listed.
- Technical relationships between old part numbers and new part numbers are shown as follows:
INTERCHANGE - Old part or new part can be used.
SUBSTITUTE - New part replaces old part. Old part cannot be used in place of new part.
- Mid-Year part number changes on a vehicle are noted by engine or frame number references.
(KZ400DE001181) • Affected units from beginning of model year production up to an including this engine number.
(KZ400D-008111 -) • Affected units are from this frame number to the end of model year production.
(KZ200DE000181 - KZ200DE018888) • Affected units are in this engine number range.

I. Specification Code

Identify the vehicle market or country for which the part applies. If no code is listed, the part is used for all markets covered by this catalog.

Specification code	Specification
CA	California (U.S.A.)
CN	Canada
US	49-State (U.S.A.)

J. Grid Index

The Grid Index is used to help find the next part on a grid without returning to the Pictorial Index.

EMISSION CONTROL INFORMATION (Street Legal Vehicles)

To protect the environment in which we all live, Kawasaki has incorporated crankcase emission (1) and exhaust emission (2) control systems in compliance with applicable regulations of the United States Environmental Protection Agency and California Air Resources Board. Additionally, Kawasaki has incorporated an evaporative emission control system (3) in compliance with applicable regulations of the California Air Resources Board on vehicles sold in California.

1. Crankcase Emission Control System

This system eliminates the release of crankcase vapors into the atmosphere. Instead, the vapors are routed through an oil separator to the intake side of the engine. While the engine is operating, the vapors are drawn into combustion chamber, where they are burned along with the fuel and air supplied by the carburetion or fuel injection system.

2. Exhaust Emission Control System

This system reduces the amount of pollutants discharged into the atmosphere by the exhaust of this motorcycle. The fuel, ignition, and exhaust systems of this motorcycle have been carefully designed and constructed to ensure an efficient engine with low exhaust pollutant levels. The exhaust systems of some model motorcycles include a catalytic converter system.

3. Evaporative Emission Control System

Vapors caused by fuel evaporation in the fuel system are not vented into the atmosphere. Instead, fuel vapors are routed into the running engine to be burned, or stored in a canister when the engine is stopped. Liquid fuel is caught by a vapor separator and returned to the fuel tank.

The Clean Air Act, which is the federal law covering motor vehicle pollution, contains what is commonly referred to as the Act's "tampering provisions."

"Sec. 203(a) The following acts and the causing thereof are prohibited...

(3)(A) for any person to remove or render inoperative any device or element of design installed on or in a motor vehicle engine in compliance with regulations under this title prior to its sale and delivery to the ultimate purchaser, or for any manufacturer or dealer knowingly to remove or render inoperative any such device or element of design after such sale and delivery to the ultimate purchaser.

(3)(B) for any person engaged in the business of repairing, servicing, selling, leasing, or trading motor vehicles or motor vehicle engines, or who operates a fleet of motor vehicles knowingly to remove or render inoperative any device or element of design installed on or in a motor vehicle or motor vehicle engine in compliance with regulations under this title following its sale and delivery to the ultimate purchaser..."

NOTE

The phrase "remove or render inoperative any device or element of design" has been generally interpreted as follows:

1. *Tampering does not include the temporary removal or rendering inoperative of devices or elements of design in order to perform maintenance.*
2. *Tampering could include:*
 - a. *Maladjustment of vehicle components such that the emission standards are exceeded.*
 - b. *Use of replacement parts or accessories which adversely affect the performance or durability of the motorcycle.*
 - c. *Addition of components or accessories that result in the vehicle exceeding the standards.*
 - d. *Permanently removing, disconnecting or rendering inoperative any component or element of design of the emission control systems.*

Regarding these dealer responsibilities as they relate to this parts catalog, you will notice that certain items are identified as "OFF-ROAD USE ONLY" or "RACING USE ONLY." These items do not comply with emissions regulations issued by the United States Environmental Protection Agency or the California Air Resources Board and should not be used on any motorcycle which is intended to be used on the public roads.

Also, use only those items which are applicable to the motorcycle in question.

Examples:

1. Do not install oversize rear sprockets identified as "OFF-ROAD USE ONLY" in this parts catalog on dual-purpose models which are intended to be used on public roads.
2. Carburetor components (jets, throttle valves, etc.) should only be used on the applicable model(s) noted in this parts catalog.

WE RECOMMEND THAT ALL DEALERS OBSERVE THESE PROVISIONS OF FEDERAL LAW, THE VIOLATION OF WHICH IS PUNISHABLE BY CIVIL PENALTIES NOT EXCEEDING \$10,000 PER VIOLATION.

TAMPERING WITH NOISE CONTROL SYSTEM PROHIBITED

Federal law prohibits the following acts or the causing thereof: (1) the removal or rendering inoperative by any person other than for purposes of maintenance, repair, or replacement, of any device or element of design incorporated into any new vehicle for the purpose of noise control prior to its sale or delivery to the ultimate purchaser or while it is in use, or (2) the use of the vehicle after such device or element of design has been removed or rendered inoperative by any person.

Among those acts presumed to constitute tampering are the acts listed below:

- Replacement of the original exhaust system or muffler with a component not in compliance with federal regulations.
- Removal of the muffler(s) or any internal portion of the muffler(s)
- Removal of the air box or air box cover.
- Modification to the muffler(s) or air intake system by cutting, drilling, or other means if such modification results in increased noise levels.
