Advierta lo que le dicen las llantas mientras conduce:

- Si su respuesta a la dirección es lenta o si en las curvas y en el frenado la respuesta es pesada, es muy probable que sus llantas estén desinfladas.
- Vibración o tambaleo durante la conducción, puede significar que la presión en las llantas es mayor a la recomendada, o que ha ocurrido un daño en la llanta y la falla es inminente.
- La llanta puede vibrar a ciertas velocidades debido al desbalanceo, en este caso su desgaste será muy acelerado.

**RECUERDE SIEMPRE REVISAR LA PRESIÓN DE AIRE EN SUS LLANTAS
ANTES DE COMENZAR A RODAR**

PREFACIO

Es nuestro placer presentarles a ustedes el Catálogo de Partes.

Este Catálogo ha sido especialmente diseñado para ayudarle en la selección de las partes correctas con el fin de mantener el vehículo en las mejores condiciones.

Los repuestos originales están sujetos a un exigente estándar de control de calidad, por lo tanto es necesario que usted sólo use repuestos originales.

En nuestro constante esfuerzo para mejorar la eficiencia y desempeño de su vehículo, las especificaciones, diagramas y número de partes pueden cambiar sin previo aviso. Consecuentemente las descripciones de los repuestos en este Catálogo pueden no ser las finales y definitivas.

Las alteraciones y modificaciones que ocurren en la impresión de este Catálogo, serán informadas a nuestra red, a través de circulares de Servicio o en nuestra página web: www.auteco.com.co accediendo al link repuestos. Es requisito que usted actualice su Catálogo y haga las correcciones necesarias, una vez reciba dichas circulares. Lo anterior le asegurará un rápido y adecuado despacho de sus partes, pues las órdenes están siendo diligenciadas con las referencias más actualizadas.

En caso de necesitar asistencia técnica, comunicarse con el Distribuidor Autorizado o llamar al Departamento de Servicios Auteco-Kawasaki.

This exploded view diagram illustrates the assembly of a carburetor. The main body is labeled 1. Key components shown include:

- 2**: Two different types of O-rings.
- 3**: A large circular gasket or plate.
- 4**: A cylindrical component, likely a float valve or needle.
- 5**: A circular cap or cover for the float chamber.
- 6**: A small pin or screw.
- 7**: A small washer or spacer.
- 8**: A long vertical screw or pin.
- 9**: A screw with a washer.
- 10**: Two screws with washers, likely for the float bowl.
- 11**: Two washers.
- 12**: A label pointing to the float bowl (bottom) and the main body (top).

1

This exploded view diagram illustrates the assembly of a carburetor. The main components shown are the carburetor body (1), the float bowl (2), and the float valve assembly (3). The float valve assembly includes the float valve (3), the float valve gasket (4), the float valve pin (5), the float valve spring (6), the float valve pin (7), the float valve spring (8), the float valve pin (9), the float valve spring (10), the float valve pin (11), the float valve spring (12), the float valve pin (13), the float valve spring (14), the float valve pin (15), and the float valve spring (16). The diagram shows the assembly sequence from the carburetor body down to the float bowl and float valve assembly.

2

This diagram illustrates the assembly of a mechanical component, likely a valve or actuator, shown in an exploded view. The components are numbered as follows:

- 1**: A long, thin cylindrical rod or shaft.
- 2**: A short cylindrical sleeve or bush.
- 3**: A complex mechanical housing or bracket with two circular ports.
- 4**: A small cylindrical pin or plug.
- 5**: A small cylindrical component, possibly a seal or bush.
- 6**: A large, multi-coiled spring.
- 7**: A long, thin rod with a flared base.
- 8**: A small circular washer or spacer.
- 9**: A small circular washer or spacer.

The assembly is shown in a disassembled state, with dashed lines indicating the intended alignment and fit of the parts. The main body (3) features a central vertical passage through which the rod (1) and spring (6) are assembled. The rod (1) passes through the housing (3) and is secured by a pin (4) at the top. The spring (6) is positioned around the rod, and the flared base (7) is at the bottom. The sleeve (2) is shown near the top of the rod, and the washers (8 and 9) are positioned near the housing (3).

F Pulsar 220 con Carenaje / S Pulsar 220 Sport / SS Pulsar 220 Super Sport

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or valve. The components are numbered 1 through 15:

- 1**: A circular gasket or seal.
- 2**: A long, multi-part assembly consisting of a shaft, a gear (6), and various seals and washers (4, 3, 7, 8, 9).
- 3**: A small circular seal or washer.
- 4**: A small circular seal or washer.
- 5**: A long, thin rod or pin.
- 6**: A large gear with multiple teeth.
- 7**: A small circular seal or washer.
- 8**: A small circular seal or washer.
- 9**: A small screw or bolt.
- 10**: A long, flexible chain or belt.
- 11**: A small screw or bolt.
- 12**: A small circular seal or washer.
- 13**: A small screw or bolt.
- 14**: A circular flange or mounting plate.
- 15**: A small screw or bolt.

The diagram shows the relative positions and assembly sequence of these parts. Dashed lines indicate the alignment and fit of the components. A rectangular box highlights the main assembly area, and a circular inset provides a detailed view of the internal components (2, 3, 4, 6, 7, 8, 9).

F Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This diagram illustrates the assembly of a piston and connecting rod. The components are labeled as follows:

- 1**: Piston crown and rings
- 2**: Piston pins
- 3**: Piston pin clips
- 4**: Piston rings
- 5**: Piston pin clips
- 6**: Piston pin clips
- 7**: Piston pin clips
- 8**: Piston pin clips
- 9**: Piston pin clips
- 10**: Piston pin clips

5

This exploded view diagram illustrates the assembly of a mechanical component, likely a pulley or a small motor. The components are numbered 1 through 13. The main assembly consists of a central shaft (1) with a pulley (2) and a gear (3) mounted on it. A bracket (4) is attached to the shaft. A small pin (5) is used to secure the assembly. A gear (6) is mounted on the shaft, and a pulley (7) is attached to it. A gear (8) is mounted on the shaft, and a pulley (9) is attached to it. A gear (10) is mounted on the shaft, and a pulley (11) is attached to it. A gear (12) is mounted on the shaft, and a pulley (13) is attached to it. The diagram shows the relative positions of the components and the order of assembly.

6

This exploded view diagram illustrates the assembly of a mechanical component, likely a pump or motor. The parts are numbered as follows:

- 1**: A large gear or flywheel.
- 2**: A small triangular piece, possibly a shim or spacer.
- 3**: A small screw or pin.
- 4**: A long shaft or axle.
- 5**: A small screw or pin.
- 6**: A small gear or pinion.
- 7**: A small circular piece, possibly a washer or seal.
- 8**: A small rectangular piece, possibly a shim or spacer.
- 9**: A small circular piece, possibly a washer or seal.
- 10**: A large circular component, possibly a housing or cover.
- 11**: A long screw or pin.
- 12**: A small gear or pinion.
- 13**: A small gear or pinion.

The diagram shows the following assembly sequence:

- Part 1 is assembled with parts 2 and 3.
- Part 4 is assembled with parts 5, 6, 7, 8, 9, 10, 11, 12, and 13.

* Remítase a la página N° 69 - Notas Importantes						

This exploded view diagram illustrates the assembly of a mechanical system, likely a gearbox or transmission. The components are numbered 1 through 25. The assembly is organized into three main horizontal sections. The top section features a shaft (1) with a series of gears (3, 6, 7, 8, 9) and spacers (2, 4, 5, 16) mounted on it. The middle section shows a shaft (10) with gears (11, 12, 18, 20) and spacers (11, 19). The bottom section, enclosed in a dashed rectangular box, shows a sub-assembly consisting of a gear (23) mounted on a shaft (24) with a pin (25), and a housing or cover (21, 22) that fits over the gear. The exploded view shows the relative positions and assembly sequence of these components.

[illegible]

This exploded view diagram illustrates the components of a rear suspension system. The parts are numbered as follows:

- 1**: A long, tapered metal axle.
- 2**: A small pin or clip used to secure the brake assembly.
- 3**: A coiled spring or cable.
- 4**: A L-shaped metal bracket or control arm.
- 5**: A curved metal component, likely a shock absorber or coil spring.
- 6**: A small bolt or screw.
- 7**: A small pin or clip.
- 8**: A metal bracket or plate.
- 9**: A coiled spring or cable.
- 10**: A threaded bolt or screw.
- 11**: Two small washers or spacers.
- 12**: A small bush or spacer.
- 13**: A long, threaded rod or pin.
- 14**: A small washer or spacer.
- 15**: A small pin or clip.
- 16**: A metal bracket or plate.
- 17**: A small pin or clip.

Dashed lines indicate the assembly sequence and the relative positions of the components.

BAJAJ
pulsar 220

This diagram shows an exploded view of a mechanical assembly. The main component is a cast housing (2) with two vertical shafts (3) passing through its top. To the left is a separate gasket or flange (5) with multiple mounting holes. Below the housing, there are three circular components (6, 7, 9) which appear to be filters or screens. A small bolt (4) and a pin (10) are shown at the bottom right. A small O-ring or seal (11) is located near the bottom of the housing. Dashed lines indicate the assembly path for the circular components into the housing.

12

This diagram illustrates the exploded view of a 125cc engine assembly, showing the relationship between various components. The parts are numbered as follows:

- 1**: Engine block/cylinder assembly
- 2**: Two long screws for the cylinder head
- 3**: Piston pin
- 4**: Piston pin clip
- 5**: Piston rings
- 6**: Piston pin clip
- 7**: Piston pin clip

6 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This exploded view diagram illustrates the assembly of a Bajaj DTS-i engine. The components are numbered 1 through 14, indicating the sequence of assembly:

- 1**: The main engine block, featuring the "BAJAJ DTS-i" branding.
- 2**: A gasket or seal for the engine block.
- 3**: A bolt used to secure the engine block.
- 4**: A small circular component, likely a washer or spacer.
- 5**: A protective cover or shroud for the engine.
- 6**: A U-shaped bracket or support.
- 7**: A small, dark, irregular component, possibly a seal or gasket.
- 8**: Another small, dark, irregular component, similar to 7.
- 9**: A bolt used for the U-shaped bracket.
- 10**: A U-shaped bracket, similar to 6 but with a different internal shape.
- 11**: A small component, possibly a pin or clip, used to secure the cover.
- 12**: A small, dark, irregular component, possibly a seal or gasket.
- 13**: A small, dark, irregular component, possibly a seal or gasket.
- 14**: The "BAJAJ DTS-i" logo, indicating the engine model.

The diagram shows the engine block (1) being secured with bolt (3). The gasket (2) is placed between the engine block and the cover (5). The U-shaped brackets (6 and 10) are attached to the engine block with bolts (9). The cover (5) is secured with pins (11). The small components (4, 7, 8, 12, 13) are used as spacers or seals between various parts of the assembly.

[illegible]

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or motor component. The parts are numbered as follows:

- 1**: The main housing or frame, shown as a long, narrow rectangular block.
- 2**: A circular end cap or cover for the housing.
- 3**: A small pin or screw at the bottom of the housing.
- 4**: A central shaft or rotor assembly, including a large gear-like component labeled **7A**.
- 5**: A small circular component, possibly a seal or bearing, located between the shaft and the housing.
- 6**: A circular component at the top of the shaft assembly.
- 7B** and **7C**: Intermediate gear or seal components along the shaft.
- 8**: A series of circular components, likely seals or bearings, arranged along the length of the shaft.
- 9** and **10**: Small components, possibly screws or pins, located near the top of the housing.
- 11** and **12**: Two circular components at the top of the housing.
- 13**: A small component, possibly a pin or screw, located near the bottom of the housing.
- 14**, **15**, **16**, and **17**: A series of small components, possibly screws or pins, arranged vertically on the right side of the housing.
- 18** and **19**: A bracket or support component on the right side of the housing.
- 20**: A small component, possibly a pin or screw, located near the bottom of the bracket.

8 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or valve. The components are numbered 1 through 22. The diagram is organized into several sub-assemblies indicated by dashed boxes:

- Top Left Sub-assembly:** Includes parts 18, 19, and 2. Part 18 is a circular plate with a central hole, secured by two screws. Part 19 is a long, coiled spring. Part 2 is a circular flange or gasket.
- Central Sub-assembly:** Includes parts 4, 20, and 21. Part 4 is a vertical rod or shaft. Part 20 is a complex valve or actuator mechanism. Part 21 is a large, curved housing or casing.
- Right Sub-assembly:** Includes parts 1, 3, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, and 22. Part 1 is a long, thin rod or shaft. Part 3 is a small, rectangular component. Part 5 is a circular plate. Part 6 is a small, rectangular component. Part 7 is a small, rectangular component. Part 8 is a small, rectangular component. Part 9 is a small, rectangular component. Part 10 is a small, rectangular component. Part 11 is a long, thin rod or shaft. Part 12 is a small, rectangular component. Part 13 is a small, rectangular component. Part 14 is a small, rectangular component. Part 15 is a small, rectangular component. Part 16 is a small, rectangular component. Part 17 is a small, rectangular component. Part 22 is a small, rectangular component.

The diagram shows the relative positions and assembly sequence of these parts, with dashed lines indicating the path of assembly.

This diagram illustrates the components of a car's front left headlight assembly. The main assembly is labeled 1. The components shown in the exploded view are:

- 2: Headlight housing (shown in two views: a solid grey one and a white one with a grid pattern).
- 3: A small bracket or arm.
- 3A: A small rectangular component, possibly a reflector or lens part.
- 4: A small circular washer or spacer.
- 5: A screw for mounting.
- 6: A ring or O-ring.
- 7: A black rectangular component, likely a fog light or auxiliary light.
- 8: A long, thin rectangular plate or reflector.
- 9: A long, thin rectangular plate or reflector, slightly different in shape from 8.
- 10: A mounting bracket or arm for the fog light.
- 11: A small screw or pin.
- 12: A cylindrical component, possibly a lens or a protective cap.
- 13: A screw for mounting.
- 14: A small rectangular component, possibly a reflector or lens part.

1 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This exploded view diagram illustrates the assembly of a power tool handle. The components are identified by the following numbers:

- 1**: The main handle body.
- 2**: A rectangular mounting bracket.
- 3**: Two screws used to secure the bracket to the handle.
- 4**: A small circular O-ring or seal.
- 5**: Two screws used to secure the trigger switch mechanism.
- 6**: The trigger switch housing.
- 7**: A small pin or clip used to secure the trigger switch.
- 8**: A long, thin component, likely a trigger switch lever or a guide rail, with multiple mounting points.

The diagram shows the handle (1) with the trigger switch (6) and its housing (5) attached. The mounting bracket (2) is shown being attached to the handle with screws (3). The trigger switch lever (8) is shown being inserted into the handle, secured by a pin (7) and a clip (4). The O-ring (4) is shown being placed around the trigger switch lever.

BAJAJ
pulsar 220

This diagram illustrates the exploded view of the rear seat assembly. The components are labeled as follows:

- 1**: The main rear seat cushion.
- 2**: A small rectangular component, likely a hinge or bracket, located near the bottom right of the seat.
- 3/5**: A cable with a coiled end, connected to a rectangular electronic control unit.
- 4**: The rear seat backrest.
- 6**: A bolt used for securing the backrest to the seat frame.
- 7**: A small rectangular component, likely a hinge or bracket, located near the top left of the seat.
- 8**: A coiled cable or hose connected to the bottom of the backrest.

23

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: Points to the entire assembly shown in the exploded view.
- 2**: A screw or bolt used for fastening.
- 3**: A circular component with a central hub and radial spokes.
- 4**: A small cylindrical pin or bush.
- 5**: A long, thin, curved metal strip or spring.
- 6**: A circular ring or flange.

The exploded view shows the assembly sequence: the screw (2) is used to secure the circular component (3) to the main body. The ring (6) is then placed over the assembly, followed by the pin (4). The curved strip (5) is attached to the bottom of the assembly.

7

This diagram shows an exploded view of a vehicle chassis, likely for a small truck or utility vehicle. The main body is a curved metal frame. Various components are shown in their relative positions, with numbered callouts indicating specific parts:

- 1**: A small bolt or screw at the top left.
- 2**: Two circular components, possibly wheels or sensors, at the bottom right.
- 3**: A small circular component at the top right.
- 4**: A small circular component below 3.
- 5**: A bracket grouping three small circular components (4, 6, and another unlabeled one) at the top right.
- 6**: A small circular component below 4.
- 7**: A small circular component on the left side.
- 8/9**: A small rectangular component on the left side.

8 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This diagram illustrates the assembly of a mechanical component, likely a hinge or bracket. The main assembly consists of a long arm (4) and a shorter arm (5) joined at a pivot point (6). A spring (1) is attached to the end of arm 5. Various bolts (7, 8, 9, 10, 11, 12, 13, 14, 15) and washers (12, 13) are used to secure the components. A dashed box highlights the spring assembly area, showing the spring (1) and its mounting hardware (2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15).

9

This exploded view diagram illustrates the assembly of a bicycle seat. The main components are labeled as follows:

- 1**: The main seat body.
- 2**: The seat post clamp.
- 3**: The seat post.
- 4**: The seat post cap.
- 5**: The seat post insert.
- 6**: The seat post cap (alternative design).
- 7**: The seat post cap (alternative design).
- 8**: The seat post cap (alternative design).
- 9**: The seat post cap (alternative design).
- 10**: The seat post cap (alternative design).
- 11**: The seat post cap (alternative design).
- 12**: The seat post cap (alternative design).
- 13**: The seat post cap (alternative design).
- 14**: The seat post cap (alternative design).
- 15**: The seat post cap (alternative design).
- 16**: The seat post cap (alternative design).
- 17**: The seat post cap (alternative design).
- 18**: The seat post cap (alternative design).
- 19**: The seat post cap (alternative design).

The diagram shows the seat body (1) being attached to the seat post (3) using the seat post clamp (2). The seat post (3) is then inserted into the seat post cap (4) and secured with the seat post cap (6). The seat post cap (6) is then attached to the seat post (3) using the seat post cap (7). The seat post cap (7) is then attached to the seat post (3) using the seat post cap (8). The seat post cap (8) is then attached to the seat post (3) using the seat post cap (9). The seat post cap (9) is then attached to the seat post (3) using the seat post cap (10). The seat post cap (10) is then attached to the seat post (3) using the seat post cap (11). The seat post cap (11) is then attached to the seat post (3) using the seat post cap (12). The seat post cap (12) is then attached to the seat post (3) using the seat post cap (13). The seat post cap (13) is then attached to the seat post (3) using the seat post cap (14). The seat post cap (14) is then attached to the seat post (3) using the seat post cap (15). The seat post cap (15) is then attached to the seat post (3) using the seat post cap (16). The seat post cap (16) is then attached to the seat post (3) using the seat post cap (17). The seat post cap (17) is then attached to the seat post (3) using the seat post cap (18). The seat post cap (18) is then attached to the seat post (3) using the seat post cap (19).

BAJAJ
pulsar 220

This exploded view diagram illustrates the assembly of a bicycle seat. The main components are labeled as follows:

- 1**: Seat clamp (the bracket that holds the seat to the seatpost).
- 2**: Bolt (used to secure the seat clamp to the seatpost).
- 3**: Seat (the saddle itself).
- 4**: Washer (used to provide a flat surface for the seat clamp).
- 5**: Bolt (used to secure the seat clamp to the seat).
- 6**: Seatpost (the vertical tube that supports the seat).
- 7**: Seatpost cap (the cap that fits over the top of the seatpost).
- 8**: Seatpost cap bolt (the bolt used to secure the seatpost cap).

Dashed lines indicate the assembly path and the relative positions of the components.

1 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This diagram illustrates the assembly of a mechanical component, likely a door latch or hinge mechanism. The parts are numbered 1 through 13:

- 1**: A small rectangular plate or bracket.
- 2**: A long, thin cylindrical pin or rod.
- 3**: A small pin or screw.
- 4**: A coiled spring with hooks at both ends.
- 5**: A short, thick cylindrical sleeve or bush.
- 6**: A long, curved metal arm or lever.
- 7**: A coiled spring with hooks at both ends.
- 8**: A short, thick cylindrical sleeve or bush.
- 9**: A small pin or screw.
- 10**: A hexagonal nut.
- 11**: A circular disc or washer.
- 12**: A small bracket or plate.
- 13**: A small pin or screw.

The diagram shows the relative positions of these parts, with dashed lines indicating how they fit together. For example, part 2 is shown passing through part 1, and part 12 is shown being secured by part 13. Part 6 is shown with part 9 passing through it, which would then be secured by part 10.

BAJAJ
pulsar 220

Diagram illustrating the assembly of a motorcycle wheel and tire. The components are labeled as follows:

- 1: Front wheel assembly (rim and spokes).
- 2: Tire for the front wheel.
- 3: Rear wheel assembly (rim and spokes).
- 4: Tire for the rear wheel.
- 5: Bolt used for the tire valve.
- 6: Front wheel rim.
- 7: Rear wheel rim.

3 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This exploded view diagram illustrates the assembly of a bicycle wheel. The components are numbered as follows:

- 1:** A small screw or pin used to secure the hub.
- 2:** Two different types of bearings or spacers for the axle.
- 3:** A small cylindrical component, likely a spacer or part of the axle assembly.
- 4:** A bearing or spacer for the rear axle.
- 5:** A small ring or spacer.
- 6:** A bearing or spacer for the front axle.
- 7:** The rear brake disc (rotor) with a multi-ported design.
- 8:** A small component, possibly a pin or clip, for the rear axle.
- 9:** A small ring or spacer.
- 10:** A small screw or pin for the brake disc.
- 11:** The front fender or mudguard.
- 12:** A small screw or pin for the fender.
- 13:** A small ring or spacer.
- 14:** A small screw or pin for the fender.
- 15:** The rear axle.
- 16:** The rear spoke.
- 17:** A small screw or pin for the fender.

The diagram shows the front wheel assembly (left) and the rear wheel assembly (right). The front wheel assembly includes the fender (11), bearings (2, 6), and a small ring (5). The rear wheel assembly includes the brake disc (7), bearings (2, 4), a small ring (5), and the rear axle (15). The rear spoke (16) is shown as a separate component. The small components (1, 3, 8, 9, 10, 12, 13, 14, 17) are shown as separate parts that are used to secure the various components.

BAJAJ
pulsar 220

This technical diagram illustrates the exploded view of a mechanical assembly, likely a door latch or hinge mechanism. The components are numbered as follows:

- 1**: Main rectangular housing or plate.
- 2**: Curved metal arm or lever.
- 3**: Small curved metal piece, possibly a pin or clip.
- 4**: Small cylindrical pin or bush.
- 5**: Small cylindrical pin or bush.
- 6**: Small cylindrical pin or bush.
- 7**: Small cylindrical pin or bush.
- 8**: Small cylindrical pin or bush.
- 9**: Small cylindrical pin or bush.
- 10**: Small cylindrical pin or bush.
- 11**: Small rectangular component, possibly a switch or sensor.
- 12**: Small rectangular component, possibly a switch or sensor.
- 13**: Small rectangular component, possibly a switch or sensor.
- 14**: Small rectangular component, possibly a switch or sensor.
- 15**: Small cylindrical pin or bush.
- 16**: Curved metal arm or lever.
- 17**: Small rectangular component, possibly a switch or sensor.

The diagram shows the relative positions and assembly sequence of these parts, with dashed lines indicating the alignment and fit of the components.

5 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

Diagram illustrating the assembly of a motorcycle master cylinder and brake lever. The components are numbered 1 through 11:

- 1: Master cylinder body
- 2: Piston
- 3: Resorte Pasta Freno (Brake Pad Spring)
- 4: Tornillo de Sangrado (Bleed Screw)
- 5: Capuchón Tornillo de Sangrado (Bleed Screw Cap)
- 6: Pistón (Piston)
- 7: Guardapolvo (Dust Guard)
- 8: Aislante (Insulator)
- 9: Retenedor (Retainer)
- 10: Sello de Pistón (Piston Seal)
- 11: Pistón (Piston)

This diagram illustrates the components of a mechanical assembly, likely a pump or motor, shown in an exploded view. The parts are numbered as follows:

- 1**: The main housing or body of the assembly.
- 2**: A long, curved shaft or arm.
- 3**: A circular cover or cap.
- 4**: A long, thin rod or pin.
- 5**: A small screw or fastener.
- 6**: A small, dark, rectangular component.
- 7**: A small screw or fastener.
- 8**: A circular, textured component, possibly a filter or seal.
- 9**: A long, thin rod or pin.
- 10**: A small screw or fastener.
- 11**: A small, dark, rectangular component.
- 12**: A small, dark, rectangular component.
- 13**: A small, dark, rectangular component.
- 14**: A group of four circular components, likely seals or gaskets.
- 15**: A group of four circular components, likely seals or gaskets.
- 16**: A group of three circular components, likely seals or gaskets.
- 17**: A group of two circular components, likely seals or gaskets.
- 18**: A small, dark, rectangular component.

8 **F** Pulsar 220 con Carenaje / **S** Pulsar 220 Sport / **SS** Pulsar 220 Super Sport

This diagram illustrates the assembly of a mechanical component, likely a door latch or actuator. The parts are numbered as follows:

- 1**: Main curved lever arm.
- 2**: Small screw/bolt.
- 3**: Washer or spacer.
- 4**: Coiled spring.
- 5**: Bracket or housing (shown in a dashed box).
- 6**: Small pin or bush.
- 7**: Coiled spring.
- 8**: Ring or O-ring.
- 9**: Small cylindrical component.
- 10**: Assembly of components 6, 7, 8, and 9 (shown in a dashed box).
- 11**: Cylindrical component.
- 12**: Bolt/screw.
- 13**: Lever arm end.
- 14**: Mounting bracket.
- 15**: Lever arm end.
- 16**: Lever arm end.
- 17**: Two screws/bolts.

This exploded view diagram illustrates the components of a 220F outboard motor assembly. The parts are numbered as follows:

- 1**: Main motor housing with the "Pulsar" logo.
- 2**: Lower cowling.
- 3**: Upper cowling.
- 4**: Propeller.
- 5**: Lower cowl cap.
- 6**: Propeller nut.
- 7**: Propeller bracket.
- 8/9**: Propeller pin.
- 10**: Propeller pin lock.
- 11**: Propeller pin lock cover.
- 12**: Lower cowl cap pin.
- 13**: "220F" model designation.
- 14**: Lower cowl cap hinge.
- 15**: Lower cowl cap hinge pin.
- 16**: "Pulsar" logo decal.
- 17**: Lower cowl cap hinge cover.
- 18**: Propeller pin lock cover.
- 19**: Propeller pin lock cover pin.
- 20**: Propeller pin lock cover pin.

BAJAJ
pulsar 220

This exploded view diagram illustrates the components of a Pulsar 220F outboard motor. The central component is the main motor housing (1), which features the 'Pulsar' brand name. Surrounding it are various upper and lower cowling parts, including the upper cowl (2), the upper cowl with the '220F' model designation (4), and the lower cowl (3). The diagram also shows the propeller (11), the lower unit (5), and the upper unit (7). A fuel tank (16) with the 'Pulsar' logo is shown to the left. A fuel filter (8/9) and a fuel line fitting (10) are located near the bottom center. A small rectangular plate (6) is positioned below the main motor housing. A screw (20) is shown near the lower cowl (3). The diagram uses numbered callouts (1-20) to identify each part.

The image displays three views of a motorcycle front fender assembly:

- 1**: Top view of the fender, showing a black plastic component with a central cutout and a "Pump" logo.
- 2**: Side view of the fender, showing a black plastic component with a central cutout and a "Pump" logo.
- 3**: Bottom view of the fender, showing a black plastic component with a central cutout and a "Pump" logo.

This diagram illustrates the components of a motorcycle front fairing assembly, numbered 1 through 10:

- 1:** Upper handlebar clamp or bracket.
- 2:** Red circular indicator or light.
- 3:** Black cylindrical component, likely a lens or housing for the indicator.
- 4:** Large, black, angular front fairing plate.
- 5:** Side fairing or cheek plate.
- 6:** Left side bracket or support arm.
- 7:** Right side bracket or support arm.
- 8:** Black plastic bracket or mounting plate with multiple holes.
- 9:** Left side fairing or cheek plate.
- 10:** Right side fairing or cheek plate.

This exploded view diagram illustrates the components of a car stereo unit and their assembly sequence. The components are numbered as follows:

- 1**: Main stereo unit housing.
- 2**: Mounting screw for the unit.
- 3**: Mounting bracket or plate.
- 4**: Dash kit components, including a mounting plate (6), a bracket (8), a screw (7), a spacer (13), and a trim piece (12).
- 5**: Antenna cable and its mounting bracket.
- 9**: Power window relay and its mounting bracket.
- 10**: Relay mounting plate.
- 11**: Relay mounting screw.
- 14**: Antenna cable.
- 15**: Antenna cable connector.
- 16**: Relay coil.

The diagram shows the stereo unit (1) being mounted to the dash kit (4) using screw (2) and bracket (3). The antenna cable (5) is connected to the unit. The power window relay (9) is mounted to the dash kit (4) using bracket (10) and screw (11). The antenna cable (14) is connected to the relay (15) and the unit (16).

BAJAJ

This exploded view diagram illustrates the assembly of a boat's transom. The components are numbered 1 through 7, with dashed lines indicating their relative positions and assembly paths. Component 1 is a large, curved transom plate. Component 2 is a small rectangular plate. Component 3 is a transom hinge. Component 4 is a washer. Component 5 is a square base plate. Component 6 is a curved transom plate. Component 7 is a bolt. The diagram shows the transom plate (1) being secured with a bolt (7) and washer (4). The transom hinge (3) is shown being attached to the transom plate (1) and the boat's hull. The square base plate (5) is shown being attached to the transom plate (1) with a bolt (7) and washer (4). The curved transom plate (6) is shown being attached to the transom plate (1) with a bolt (7) and washer (4). The small rectangular plate (2) is shown being attached to the transom plate (1) with a bolt (7) and washer (4).

58

Diagram illustrating the removal of the instrument panel cover (3) using a screwdriver (4). The instrument panel (1) is shown below, featuring a speedometer (km/h), tachometer (x10³ rpm), and other gauges. The cover (3) is shown being lifted away from the panel (1). The screwdriver (4) is shown removing a screw from the cover (3). The instrument panel (1) is labeled with 1, 2, and 12.

[illegible]

This diagram shows the components of a rear window assembly. The main part is the window frame (4), which is a long, narrow, slightly curved structure. Two screws (5) are shown being inserted into the frame. A cable (1) is shown with a coiled section and a connector. Another cable (2) is shown with a coiled section and a connector. A third cable (3) is shown with a coiled section and a connector. A small circular component (6) is shown separately.

This exploded view diagram illustrates the components of a car headlight assembly. The parts are numbered as follows:

- 1**: Main headlight housing
- 2**: Headlight lens
- 3**: Upper trim piece
- 4**: Small screw
- 5**: Small pin
- 6**: Small pin
- 7**: Small trim piece
- 8**: Bolt
- 9**: LED light strip
- 10**: Bracket
- 11**: Mounting plate
- 12**: Small bracket
- 13**: Small screw
- 14**: Small screw
- 15**: Mounting bracket
- 16**: Wiring harness
- 17**: Mounting bracket

Diagram illustrating the tools and components required for the assembly:

- 1: A long, thin metal rod or pin.
- 2: A small rectangular component, possibly a bracket or spacer.
- 3: A U-shaped metal bracket.
- 4: A small screw or bolt.
- 5: A long, curved metal bracket.
- 6: A small rectangular component, possibly a bracket or spacer.
- 7: A small screw or bolt.
- 8/9: A long, thin metal rod or pin.

The tools shown include a wrench, a screwdriver, and a bag labeled **BAJAJ**.

FICHA TÉCNICA PULSAR 220

CARACTERÍSTICA	UNIDAD
Motor :	4T, monocilíndrico
Diámetro x Carrera :	67.00mm x 62.4mm
Desplazamiento	220 cc
Índice de compresión :	9.5 + 0.5 : 1
Potencia máxima :	20.71 HP @ 8.500 rpm
Torque máximo :	19 Nm @ 7.000rpm
Sistema de ignición :	CDI digital con microprocesador
Bujías :	RG6HCC (2 uds).
Tolerancia de las bujías :	0.6 a 0.9 mm
Lubricación :	Bomba húmeda de aceite, forzada.
Arranque :	Eléctrico.
Transmisión :	5 velocidades.
Freno delantero :	Disco con mordaza de doble pistón
Freno trasero :	Disco con mordaza de un sólo pistón.
Capacidad del tanque	
Lleno :	15 litros
Reserva :	3.2 litros
Reserva utilizable :	2 litros
Dimensiones	
Largo x Ancho x Alto :	2035 mm x 750 mm x 1165 mm
Distancia entre ejes :	1350 mm
Radio de giro :	2500 mm
Altura al piso :	165 mm (Min.)
Llantas:	
Delantera :	90/90 x 17, 49P tubeless
Trasera :	120/80 x 17, 61P tubeless
Presión de aire llantas :	
Delantera :	28 PSI
Trasera (Solo) :	28 PSI
Trasera (Con Parrillero) :	32 PSI
Sistema Eléctrico :	12 Volitos DC
Faro delantero :	55/55 W
Luz de día :	5 W
Luz de Stop :	LED/LED
Luces direccionales :	10 W
Indicadores del tablero :	LED
Velocímetro :	Display digital
Pito :	12 V DC
Batería :	12V - 9 Ah
Peso en seco :	152 kg.
