This diagram illustrates the exploded view of a shock absorber assembly. The main components are labeled with numbers 1 through 10:

- 1**: The main shock absorber body, a long cylindrical tube with mounting brackets.
- 2**: A mounting bracket or plate with a circular opening.
- 3**: A bracket or plate that serves as a base for the internal components.
- 4**: A small pin or clip used to secure the internal components.
- 5**: A bracket or plate that is part of the internal assembly.
- 6**: A small pin or clip used to secure the internal components.
- 7**: A small cylindrical component, likely a bush or spacer.
- 8**: A coiled spring.
- 9**: A small cylindrical component, likely a bush or spacer.
- 10**: A large cylindrical component, likely a piston or rod end.

The diagram shows the shock absorber body (1) being assembled onto the mounting bracket (2). The internal components (3, 4, 5, 6, 7, 8, 9, 10) are shown in an exploded view, indicating their relative positions and assembly order. A small logo is visible in the bottom left corner.
