HOW TO USE THIS CATALOG AND LOCATE PARTS

This Catalog is divided into Part Groups in which illustrations for parts of a similar function and/or location are published. The Group Contents listing on the next page shows the type of parts contained in each group. Tabs are provided or available to separate each group.

Several methods may be used to locate a specific part:

- Option 1: From the Group Contents listing, select the group which would most logically contain the part to be found. Open the catalog to the beginning of that group. The first page of the group will contain an index of illustrations. Select the illustration most likely to contain the part. Turn to the selected illustration and locate the part by reviewing the illustration item numbers and associated text information following the illustration.
- Option 2: If the "noun" name of the part you seek is known, an alphabetical index of Nouns and Illustration titles is provided to assist in finding the part. Several keys may be found in this index.

RESERVOIR, Power Strng. Oil Pump.	Group 19	Group Reference
ALTERNATOR, Cherokee	8-1600	Illustration Reference
BELT, Front Seat Cherokee	ITB-1000/3	Illustration/Item Reference
Group		
Illustration No.		
Item		

- Option 3: If the part number is known but the applications need to be determined, refer to the numerical index. This index shows the group, illustration number and item for each part listed in the catalog. Multiple references mean the part is listed more than once.

PART GROUP—TITLES & CONTENT

GROUP	CONTENTS
INF	Information Section
AL	Alphabetical Index
NE	Newpart Index
IL	Illustration Index (All Groups)
1	Catalog Notices
2	Front Suspension & Drive Front Suspension Components ... Steering Knuckles Front Drive Shafts, Axles, Locking Hubs ... Front Differential
3	Rear Axle Rear Axle and Component Parts ... Rear Axle Mountings
4	Parking Brake Controls
5	Service Brakes Brake Controls and Mechanism ... Brake Warning Switch, Parking Brake Components within the Wheel ... Wheel Hardware, Bearings and Seals
6	Clutch Clutch Unit and Components ... Clutch Pedal, Controls
7	Cooling Front Grille, Grille Support, Radiator Supports, Headlamp Supports ... Radiators, Fans and Fan Motors, Hoses, Thermostats ... Transmission Cooling ... Water Pump ... Drive Belts and Pulleys ... Turbocharger Cooling
8	Electrical Switches, Relays, Solenoids, Sensors, ... Battery Trays ... Engine Electrical ... Starters, Alternators, Distributors ... Front, Rear, Interior Lamp ... Body Wiring ... Horn
8A	Instrument Panel and Console Instrument Panel and Console Electrical Parts, Clusters, Switches, Wiring ... All Hard and Soft Trim Parts ... Radio, Speakers and Antenna
9 (A, B ...)	Engine (By Engine Type) Engine Components ... Engine Oil System ... Flywheels, Torque Converters ... Engine Mounting
11	Exhaust Exhaust System Components ... Heat Shields

24	Heater and Air Heater, Air Conditioning System and Controls
25	Emission Systems Air Pump ... EGR System ... Vapor Canister
NU	Numerical Index

PAGE NUMBERING

Two-part page numbers are used throughout this catalog. The first part of the page designation indicates one major group or section. The second part indicates the actual page number in the group. For example:

2-1 indicates Group 2, Front Suspension, Page 1

3-4 indicates Group 3, Axle Rear, Page 4

In the maintenance of the Loose Leaf Parts Catalog Revision Service, it may become necessary to add information beyond the capacity of the page. In this event, an "A" page will be used. For example, if it becomes necessary, because of change, to add several part numbers to page 2-1 and space does not permit the addition, you will be given Page 2-1A. Page 2-1A should be filed immediately following Page 2-1.

Figure and Item Numbers are also commonly used to identify locations in this Catalog, i.e., 14-900/8 refers to Group 14, illustration 900, Item Number 8. Illustration Numbers are always ascending sequential within the Groups.

RIGHT AND LEFT PART NUMBERS

Right and Left part numbers are frequently combined on one line, e.g., 3514 444-5. Such numbers are interpreted as 3514 444 Right Side application and 3514 445 Left Side. Right and Left Sides are always determined by their relationship to the driver when normally seated and looking forward.

SYMBOLS USED IN THIS PARTS CATALOG

The following symbols are commonly used with Part Number and quantity information in this Catalog:

— Preceding a part number indicates parts which have been added and not previously published.

AR — Indicates the quantity required may vary or is to be determined by the user.

PAR — (Indicates Paint As Required).

SPECIFYING INFORMATION

The following information is included in this Parts Catalog:

1. Part Name
2. Part Number
3. Model Application
4. Quantity used per vehicle
5. Description and dimensions necessary for proper identification of parts where necessary
6. Model or Engine Column:
Engine by Displacement or Vehicle Model
Code Body Style Code or Price Class.
7. Effective points of model year running changes are indicated by vehicle serial number, engine number or body number where applicable. When serial number effective points are not available, production effective dates are used. (Refer to the Federal Certification Label for the build date.)
8. Parts designated as CANADA or EXPORT are not available through U.S. parts outlets.

In the event replacement parts not listed herein are required due to a special service situation, Dealers should contact their factory specifier for assistance. Problems encountered with peculiar part specifications can be resolved in the same manner.

ILLUSTRATION INDEX

This index is a compilation of catalog parts description data with reference to illustrations, figures and key numbers as shown:

ILLUSTRATION INDEX	GROUP	ILLUS. NO.
FENDER D. W.		23A-1400

The first page of each group contains a listing of all illustrations within that group. Also refer to illustrations alphabetically listed in information section.

ALPHABETICAL INDEX

This index is a compilation of catalog parts description data with a reference to the location of the item by group—Figure and key number as shown in the following example:

Housing, w/Pump	7 - 1500 / 18
Group	
Illustration No.	
Item	

The index will be expanded progressively as data is added to computer files. To locate a part by name, refer to the Alphabetical Index. This indicates the group and illustration and item number where the part is located. Alphabetical Index can be found in INF section of catalog.

NUMERICAL INDEX

A listing of Part Numbers contained in the catalog. The numbers are in numerical sequence with reference to the group and illustration and item number where the part is located.

PARTS PACKAGES

Service Parts Packages, containing all parts needed for specific service operation, are listed in their respective groups with related parts. The listing will show adaptability and model application.

STANDARD PARTS

Important attaching standard parts such as bolts, nuts, etc., are generally listed in the text of the respective major parts groups.

CATALOG AND PARTS BULLETINS

BULLETINS are issued when important changes are made in production or when corrections are to be made in the Parts Catalog between regular revisions. All catalogs should be noted and changed accordingly to remain current between revisions.

PARTS CATALOG REVISION SERVICE

Subscribers to the Jeep/Eagle Parts Catalog Revision Service will be periodically provided with revised copy incorporating the latest information. Revisions may be provided by Group or complete book copy.

NEWPART INDEX

A listing of new part numbers contained in the catalog. The numbers are in group sequence with reference to the illustration and item number where the part is located.

INTERIOR TRIM

Refer to the Group IT, Interior Trim section of the catalog, for information relative to Interior Soft and Hard Trim, Rolled Stock, etc.

TRANSMISSION IDENTIFICATION

The Part Number and/or Model Number of the Transmission.

ENGINE IDENTIFICATION

A Sequential Number Assigned by the Engine Assembly Plant.

4 Cyl. (AMC)

Inline 6 Cyl.

8 Cyl.

4 Cyl. (GM)

V-6 Cyl.

TRANSFER CASE IDENTIFICATION

The Model Number and Part Number of the Transfer Case Assembly.

Figure 1-300

This diagram illustrates the exploded view of a vehicle chassis and engine assembly. The components are numbered as follows:

- Engine and Fuel System:** Includes the engine block (1), carburetor (2), fuel filter (3), fuel pump (4), and various hoses and connectors (5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100).
- Chassis and Drivetrain:** Includes the front suspension (1), steering knuckle (2), steering rack (3), drive shaft (4), rear suspension (5), and various bolts and nuts (6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100).
- Wheels and Tires:** Includes the front wheels (1), rear wheels (2), and tires (3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100).

Figure 1-500

This technical diagram illustrates the exploded view of a vehicle chassis and suspension system. The central component is the chassis frame (13), which includes the front cross-member (14) and rear cross-member (15). The front suspension assembly (16) features a coil spring (11) and shock absorber (12). The rear suspension assembly (17) includes a coil spring (18) and shock absorber (19). The diagram also shows the front wheel assembly (20) and rear wheel assembly (21), both featuring a hub (22) and a tire (23). Various other components are labeled with numbers, including bolts (1), nuts (2), washers (3), and bushings (4). The diagram is a black and white line drawing with numbered callouts for each part.

Figure 2-600

A schematic diagram of a gas chromatograph. The main body is a vertical cylinder (1) with a gas inlet at the bottom left (2) and a gas outlet at the bottom right (3). A carrier gas inlet is at the top left (5). A detector is at the top right (4). A series of components are connected between the inlet and the detector: a coil (6) and a filter (7). The entire system is enclosed in a dashed rectangular box.

Figure 2-1100

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or motor component. The main assembly is centered around a large, irregularly shaped housing (1) with a central shaft (9) extending from it. The shaft is connected to a smaller component (10) which has a flange (11). A series of gears or pulleys (2, 3, 4, 5, 6, 7, 8) are arranged along the shaft. A large, circular, disc-like component (30) is shown at the top left, connected to the shaft via a series of smaller components (31, 16, 13, 14, 15). A long, curved arm (23) is attached to the side of the main housing, featuring a series of small, rectangular components (24, 25, 26, 27, 28, 29) along its length. A large, rectangular component (18) is shown at the bottom, connected to the main assembly via a series of smaller components (19, 20, 21). A series of small, circular components (22, 23, 24, 25, 26, 27, 28, 29) are shown in a dashed box at the top right, indicating they are part of the assembly. The diagram is labeled with numbers 1 through 32, corresponding to the various parts.

This image shows a blank sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

MASTER CYLINDER WITHOUT POWER BRAKES CJ-5,6,7,8, SCRAMBLER
Figure 5-200

81J05 200

An exploded view diagram of a master cylinder assembly. The diagram shows the main cylinder body (1) at the top left, with various internal components like pistons (6, 7), retainers (8, 9), and springs (5) shown in their relative positions. Below the main body, there are two alternative cylinder designs (2 and 17) shown in dashed boxes. At the bottom, there are two alternative repair packages (16 and 21) shown in dashed boxes. Various bolts (12), nuts (13), washers (4), and gaskets (14, 15) are shown as separate components. The diagram is a technical line drawing with dashed lines indicating assembly paths.

Figure 6-100

This diagram shows an exploded view of a circular mechanical assembly. Part 1 is a circular plate with a central hub and radial spokes. Part 2 is a larger circular flange with a central hub and radial spokes, and a series of small holes around its outer edge. Part 3 is a small circular washer or spacer. Part 4 is a bolt or screw. The diagram illustrates how these parts are assembled together.

Figure 8-2900

This exploded view diagram illustrates the assembly of a mechanical device, likely a pump or motor. The components are numbered 1 through 29. The diagram shows the following parts and their assembly sequence:

- Part 1:** The main cylindrical housing or motor body.
- Part 2:** A central shaft or pin.
- Part 3:** A circular end plate or cover.
- Part 4:** A circular flange or mounting plate.
- Part 5:** A cylindrical component, possibly a piston or a seal.
- Part 6:** A small pin or screw.
- Part 7:** A small circular washer or gasket.
- Part 8:** A small circular washer or gasket.
- Part 9:** A small circular washer or gasket.
- Part 10:** A small circular washer or gasket.
- Part 11:** A bracket or support arm.
- Part 12:** A coiled spring.
- Part 13:** A small rectangular plate or gasket.
- Part 14:** A small rectangular plate or gasket.
- Part 15:** A complex mechanical component, possibly a valve or a pump head.
- Part 16:** A long, thin rod or shaft.
- Part 17:** A conical or bell-shaped component.
- Part 18:** A small rectangular plate or gasket.
- Part 19:** A rectangular plate or base.
- Part 20:** A circular flange or mounting plate.
- Part 21:** A small circular washer or gasket.
- Part 22:** A small rectangular plate or gasket.
- Part 23:** A small rectangular plate or gasket.
- Part 24:** A small circular washer or gasket.
- Part 25:** A small rectangular plate or gasket.
- Part 26:** A small circular washer or gasket.
- Part 27:** A small circular washer or gasket.
- Part 28:** A small rectangular plate or gasket.
- Part 29:** A small rectangular plate or gasket.

The diagram uses dashed lines to indicate the assembly path and the relative positions of the components. The components are arranged in a way that shows how they fit together to form the final assembly.

Figure 9A-3000

The diagram shows an exploded view of a mechanical assembly, divided into two main sections labeled 1 and 2.

Section 1 (Left): This section contains a large rectangular component with four circular openings. Above it is a smaller component with two rectangular openings. Further up are several small circular and hexagonal parts, including a large circular flange at the top left.

Section 2 (Right): This section contains a large, curved, S-shaped component. To its right are several smaller components, including a circular flange, a rectangular plate, and a curved piece. Below these are two long, thin, wavy components and a series of small circular parts. At the bottom of this section is a long, thin component with multiple small protrusions.

Figure 9A-3500

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or motor component. The parts are numbered as follows:

- 1**: Main housing or base plate.
- 2**: Small circular component, possibly a cap or seal.
- 3**: Small cylindrical component.
- 4**: Small cylindrical component.
- 5**: Two vertical pins or rods.
- 6**: Small cylindrical component.
- 7**: Small cylindrical component.
- 8**: Small cylindrical component.
- 9**: Small cylindrical component.
- 10**: Small cylindrical component.
- 11**: Curved pipe or hose.
- 12**: Small cylindrical component.
- 13**: Small cylindrical component.
- 14**: Small cylindrical component.
- 15**: Small cylindrical component.
- 16**: Small cylindrical component.
- 17**: Small cylindrical component.
- 18**: Large cylindrical component, possibly a filter or cap.
- 19**: Small cylindrical component.
- 20**: Small cylindrical component.
- 21**: Large rectangular component, possibly a base or housing.
- 22**: Long rod or pin.
- 23**: Small cylindrical component.
- 24**: Small cylindrical component.
- 25**: Small cylindrical component.
- 26**: Small cylindrical component.
- 27**: Long, thin, curved component, possibly a seal or gasket.
- 28**: Small cylindrical component.
- 29**: Small cylindrical component.
- 30**: Small cylindrical component.
- 31**: Small cylindrical component.
- 32**: Small cylindrical component.
- 33**: Small cylindrical component.
- 34**: Small cylindrical component.
- 35**: Small cylindrical component.

Figure 9A-4900

This exploded view diagram illustrates the assembly of a mechanical component, likely a bracket or support. The parts are numbered 1 through 37. The assembly process involves mounting various plates, brackets, and fasteners. Key components include a main base plate (15), a mounting bracket (14), a support plate (20), and a long structural member (15). The assembly is secured with numerous bolts (e.g., 8, 9, 10, 11, 12, 13, 16, 17, 18, 19, 23, 24, 27, 35, 37), nuts (e.g., 3, 4, 6, 7, 10, 11, 12, 13, 16, 17, 18, 19, 23, 24, 27, 35, 37), and washers (e.g., 2, 3, 4, 6, 7, 10, 11, 12, 13, 16, 17, 18, 19, 23, 24, 27, 35, 37). A vertical column of parts (30, 31, 32, 33, 34, 35, 36) is shown on the right, representing a separate assembly or a stack of components.

81J56 900

This diagram illustrates the exploded view of a vacuum furnace assembly. The components are numbered as follows:

- 1**: Main furnace body or chamber.
- 2**: Small cylindrical component, likely a heater or sensor.
- 3**: Small circular component, possibly a gasket or seal.
- 4**: Large cylindrical component, likely a base or support.
- 5**: Small cylindrical component, likely a heater or sensor.
- 6**: Small cylindrical component, likely a heater or sensor.
- 7**: Small cylindrical component, likely a heater or sensor.
- 8**: Small circular component, possibly a gasket or seal.
- 9**: Small circular component, possibly a gasket or seal.

The diagram shows the spatial arrangement of these parts, with dashed lines indicating the assembly path. The furnace body (1) is positioned at the top, with the base (4) below it. The heaters/sensors (2, 5, 6, 7) are distributed around the furnace body. The gaskets/seals (3, 8, 9) are positioned at the interfaces between the furnace body and the base, and between the heaters/sensors and the furnace body.

Figure 9B-2300

This exploded view diagram illustrates the assembly of a mechanical device. The components are numbered as follows:

- 1**: Main rectangular frame or housing.
- 2**: Small rectangular component with a curved slot, positioned above the main frame.
- 3**: Circular disc with a central hub, located to the left of the main frame.
- 4**: Ring or gasket, positioned below the disc 3.
- 5**: Small pin or screw, located near the disc 3.
- 6**: Small circular component, positioned near the main frame.
- 7**: Small rectangular component, located near the main frame.
- 8**: Small circular component, located near the bottom right.
- 9**: Circular disc with a central hub, located near the bottom right.
- 10**: Small pin or screw, located near the bottom right.
- 11**: Small pin or screw, located near the bottom right.
- 12**: Small pin or screw, located near the bottom right.
- 13**: Small pin or screw, located near the bottom right.
- 14**: Small circular component, located near the bottom right.
- 15**: Small pin or screw, located near the bottom right.
- 16**: Small pin or screw, located near the bottom right.
- 17**: Small pin or screw, located near the bottom right.
- 18**: Small pin or screw, located near the bottom right.
- 19**: Small circular component, located near the top right.
- 20**: Small circular component, located near the top right.
- 21**: Small pin or screw, located near the top right.
- 22**: Long rectangular component with multiple slots, located at the top.
- 23**: Coiled spring, located at the top left.
- 24**: Small circular component, located near the top left.
- 25**: Small pin or screw, located near the top left.
- 26**: Small rectangular component, located near the top left.
- 27**: Small rectangular component, located near the top left.
- 28**: Circular disc with a central hub, located near the top right.
- 29**: Small circular component, located near the top right.
- 30**: Small circular component, located near the top right.
- 31**: Circular disc with a central hub, located near the top right.
- 32**: Small circular component, located near the top right.

Figure 9B-2800

This diagram is an exploded view of a mechanical assembly, likely a vehicle's rear suspension or steering component. It shows the following parts and their assembly relationships:

- Top Left:** Two circular components, labeled 2 and 1, which appear to be mounting plates or flanges.
- Top Right:** A large, complex bracket or housing (part 17) with several mounting points. It includes a central pivot point (13) and a lower mounting point (14).
- Center:** A main assembly area showing a central pivot (10) and a lower mounting point (11). A large, curved component (18) is shown below the main assembly, with a mounting point (19) and a lower mounting point (20).
- Bottom Left:** A series of components including a small bracket (12), a pin (13), a bracket (14), a pin (15), a bracket (16), a pin (17), a bracket (18), a pin (19), a bracket (20), a pin (21), a bracket (22), a pin (23), a bracket (24), a pin (25), a bracket (26), a pin (27), a bracket (28), a pin (29), and a bracket (30).
- Bottom Right:** A series of components including a pin (31), a bracket (32), a pin (33), a bracket (34), a pin (35), a bracket (36), a pin (37), a bracket (38), a pin (39), a bracket (40), a pin (41), a bracket (42), a pin (43), a bracket (44), a pin (45), a bracket (46), a pin (47), a bracket (48), a pin (49), and a bracket (50).

The diagram uses dashed lines to indicate the assembly path and alignment of the various components.

This diagram shows the cylinder head assembly in an exploded view. The main component is the cylinder head, which has four large circular openings for the valves. To the right of the head is a gasket, and below it are several bolts. A line connects one of the bolts to the head, indicating its assembly position.

Figure 9C-1600

This diagram is an exploded view of a mechanical assembly. The components are numbered as follows:

- 1: A long shaft with a series of grooves or splines.
- 2: Two small circular components, possibly washers or spacers.
- 3: A small pin or screw.
- 4: A larger pin or screw.
- 5: A rectangular housing or frame.
- 6: Two cylindrical components, possibly gears or pulleys.
- 7: Two small circular components, possibly washers or spacers.
- 8: A small circular component, possibly a washer or spacer.
- 9: Two small circular components, possibly washers or spacers.
- 10: A long, thin rod or pin.
- 11: A rectangular housing or frame.
- 12: A small circular component, possibly a washer or spacer.
- 13: Two small circular components, possibly washers or spacers.
- 14: Two small circular components, possibly washers or spacers.
- 15: A small circular component, possibly a washer or spacer.
- 16: A small circular component, possibly a washer or spacer.
- 17: A small circular component, possibly a washer or spacer.
- 18: A small circular component, possibly a washer or spacer.

The diagram shows the assembly of these components into a larger unit. A dashed box at the bottom indicates the area where the components are assembled.

Figure 13-2800

This diagram illustrates the exploded view of a gas burner assembly. The components are numbered as follows:

- 1**: Main burner body.
- 2**: Gas supply line with a U-bend.
- 3**: Gas control valve assembly.
- 4**: Gas control knob.
- 5**: Small pin or screw.
- 6**: Small pin or screw.
- 7**: Small pin or screw.
- 8**: Igniter assembly (left).
- 9**: Igniter assembly (right).
- 10**: Spark plug (left).
- 11**: Spark plug (right).
- 12**: Gas control valve assembly (bottom right).
- 13**: Gas control knob (bottom right).
- 14**: Gas control knob (bottom right).
- 15**: Gas control knob (bottom right).
- 16**: Gas control knob (bottom right).
- 17**: Gas control knob (bottom right).

Figure 13-5300

This diagram illustrates the exploded view of a mechanical assembly, likely a door latch or handle mechanism. The components are numbered as follows:

- 1**: Main horizontal mounting plate.
- 2**: Small rectangular plate.
- 3**: Small rectangular plate.
- 4**: Long horizontal mounting plate.
- 5**: U-shaped bracket.
- 6**: Small rectangular plate.
- 7**: Small rectangular plate.
- 8**: Small pin or screw.
- 9**: Small pin or screw.
- 10**: Cable or wire.
- 11**: Small pin or screw.
- 12**: Small pin or screw.
- 13**: Small pin or screw.
- 14**: Small pin or screw.
- 15**: Small rectangular plate.
- 16**: Small pin or screw.
- 17**: Small pin or screw.
- 18**: Small rectangular plate.
- 19**: Small rectangular plate.
- 20**: Small pin or screw.
- 21**: Small pin or screw.
- 22**: Small rectangular plate.
- 23**: Small pin or screw.
- 24**: Small pin or screw.
- 25**: Small pin or screw.
- 26**: Small pin or screw.
- 27**: Small pin or screw.
- 28**: Small pin or screw.
- 29**: Small pin or screw.
- 30**: Small rectangular plate.
- 31**: Small rectangular plate.
- 32**: Small rectangular plate.
- 33**: Small rectangular plate.
- 34**: Small pin or screw.
- 35**: Small pin or screw.
- 36**: Small pin or screw.
- 37**: Small pin or screw.
- 38**: Small rectangular plate.
- 39**: Small rectangular plate.
- 40**: Small pin or screw.

Figure 13-5600

This diagram illustrates the exploded view of a mechanical assembly, likely a door latch or lock mechanism. The components are numbered 1 through 35. The assembly includes a main body (1), a handle (2), a latch bolt (3), a strike plate (4), a latch housing (5), a latch spring (6), a latch pin (7), a latch pin spring (8), a latch pin guide (9), a latch pin spring guide (10), a latch pin spring guide (11), a latch pin spring guide (12), a latch pin spring guide (13), a latch pin spring guide (14), a latch pin spring guide (15), a latch pin spring guide (16), a latch pin spring guide (17), a latch pin spring guide (18), a latch pin spring guide (19), a latch pin spring guide (20), a latch pin spring guide (21), a latch pin spring guide (22), a latch pin spring guide (23), a latch pin spring guide (24), a latch pin spring guide (25), a latch pin spring guide (26), a latch pin spring guide (27), a latch pin spring guide (28), a latch pin spring guide (29), a latch pin spring guide (30), a latch pin spring guide (31), a latch pin spring guide (32), a latch pin spring guide (33), a latch pin spring guide (34), and a latch pin spring guide (35). The diagram shows the spatial relationship between these parts, with dashed lines indicating the assembly path.

Figure 19-2700

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: Main housing or frame.
- 2**: A small rectangular component, possibly a filter or seal.
- 3**: A long, thin rod or pin.
- 4**: A small circular component.
- 5**: A small rectangular component.
- 6**: A long, thin rod or pin.
- 7**: A small rectangular component.
- 8**: A small circular component.
- 9**: A small rectangular component.
- 10**: A small rectangular component.
- 11**: A long, thin rod or pin.
- 12**: A small rectangular component.
- 13**: A small rectangular component.
- 14**: A small rectangular component.
- 15**: A small rectangular component.
- 16**: A small rectangular component.
- 17**: A long, thin rod or pin.
- 18**: A small circular component.
- 19**: A small circular component.
- 20**: A small rectangular component.
- 21**: A small circular component.
- 22**: A small circular component.
- 23**: A long, thin rod or pin.
- 24**: A small rectangular component.
- 25**: A small rectangular component.
- 26**: A small circular component.
- 27**: A small rectangular component.
- 28**: A small rectangular component.
- 29**: A small rectangular component.
- 30**: A small rectangular component.
- 31**: A long, thin rod or pin.
- 32**: A small circular component.
- 33**: A small rectangular component.
- 34**: A small rectangular component.
- 35**: A small circular component.
- 36**: A small rectangular component.
- 37**: A small rectangular component.
- 38**: A small rectangular component.
- 39**: A small rectangular component.

Figure 19-3800

This diagram illustrates the exploded view of a mechanical assembly, likely a pump or valve mechanism. The components are numbered 1 through 45. The assembly includes a main shaft (13) with various fittings, a piston rod (23), and a piston (24). Other parts include a valve (14), a check valve (15), a spring (16), a pin (17), a bush (18), a nut (19), a washer (20), a seal (21), a gasket (22), a bracket (25), a pin (26), a nut (27), a washer (28), a pin (29), a bush (30), a nut (31), a washer (32), a pin (33), a nut (34), a washer (35), a pin (36), a bush (37), a nut (38), a washer (39), a pin (40), a bush (41), a nut (42), a washer (43), a pin (44), a bush (45), and a pin (46). The diagram shows the relative positions and assembly sequence of these parts.

Figure 19-5900

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A large, complex housing or bracket.
- 2**: A small pin or clip.
- 3**: A curved metal plate or bracket.
- 4**: A small pin or clip.
- 5**: A long, thin metal rod or shaft.
- 6**: A small pin or clip.
- 7**: A small pin or clip.
- 8**: A small pin or clip.
- 9**: A small pin or clip.
- 10**: A small pin or clip.
- 11**: A small pin or clip.
- 12**: A long, curved metal rod or shaft.
- 13**: A small pin or clip.
- 14**: A small pin or clip.
- 15**: A small pin or clip.
- 16**: A small pin or clip.
- 17**: A small pin or clip.

The diagram illustrates the assembly sequence and relative positions of these parts. Dashed lines indicate the alignment and fit of the components. A large circular component, possibly a pulley or wheel, is shown at the bottom right, connected to the assembly by a belt or cable.

Figure 19-6000

This exploded view diagram illustrates the assembly of a mechanical system. The components are numbered 1 through 25. Key features include:

- Structural Components:** Brackets (1, 2, 3, 4, 5, 6, 7, 14, 21), a main housing (16), and a base plate (12).
- Fasteners:** Screws (10, 11, 13, 14, 15, 17, 18, 19, 20, 22, 23, 24), bolts (12, 21), and pins (9).
- Mechanical Elements:** Two rollers (3, 11), a pulley (8), and a cable or belt (4).
- Dimensions:**
 - 75" (indicated on part 7)
 - 25mm (indicated on part 9)
 - 4.50" (indicated on part 8)
 - 16mm (indicated on part 22)
 - 1" (indicated on part 10)

Figure 21A-300

This technical drawing is an exploded view of a mechanical assembly, likely a pump or motor component. It features 42 numbered parts. The central component is a large, curved housing (4) with a flange (30) and a mounting bracket (31). A shaft (1) is shown passing through the housing, with a pulley (5) and a belt (14) attached. A motor or actuator (38) is shown connected to the shaft via a coupling (39). The assembly is secured with various bolts (e.g., 10, 11, 12, 13, 15, 16, 17, 18, 25, 26, 27, 28, 32, 33, 34, 35, 36, 37, 40) and washers (7, 8, 9, 10, 11, 12, 13, 15, 16, 17, 18, 25, 26, 27, 28, 32, 33, 34, 35, 36, 37, 40). A separate component (24) is shown at the bottom left, and a rectangular frame (19) is shown at the bottom right. The diagram uses dashed lines to indicate the assembly path and alignment of the components.

Figure 21A-1600

This diagram illustrates the assembly of a mechanical device, likely a pump or actuator, with various components labeled numerically. The parts are shown in an exploded view to indicate their relative positions and assembly sequence.

- Top Section:** A horizontal assembly of parts including a circular flange (1), a threaded component (2), a small pin (3), a screw (4), a nut (5), and a washer (6).
- Central Section:** A rectangular plate (29) with a central slot, a curved arm (31), and a vertical rod (12) passing through a bracket (10).
- Right Section:** A complex linkage system featuring a long arm (13), a pivot point (17), a small component (18), a nut (26), and a series of interconnected rods and joints (14, 15, 16, 19, 20, 21, 22, 23, 24, 25, 30).
- Bottom Section:** A rectangular frame (11) and a long rod (7) with a threaded end (8) and a nut (9).

81J69 6000

A technical line drawing of a rectangular metal frame with rounded corners. The frame is composed of two parallel lines, suggesting a double-strut design. A small vertical pin or fastener is located at the top center of the frame. The drawing is oriented diagonally, with the top-left corner pointing towards the upper left of the page.

AR = Use as Required - = Non Illustrated Part P.A.R. = Paint as Required

Figure 23A-8500

This exploded perspective view illustrates the assembly of a mechanical device. The components are numbered as follows:

- 1**: Main longitudinal frame or housing.
- 2**: Upper longitudinal rail or guide.
- 3**: Lower longitudinal rail or guide.
- 4**: A long, thin rectangular plate or insert.
- 5**: A small rectangular component, possibly a pin or spacer.
- 6**: A small circular or cylindrical component.
- 7**: A small rectangular component, possibly a pin or spacer.
- 8**: A small rectangular component, possibly a pin or spacer.
- 9**: A small rectangular component, possibly a pin or spacer.
- 10**: A small circular or cylindrical component.
- 11**: A small rectangular component, possibly a pin or spacer.
- 12**: A small rectangular component, possibly a pin or spacer.
- 13**: A small rectangular component, possibly a pin or spacer.
- 14**: A small rectangular component, possibly a pin or spacer.
- 15**: A small rectangular component, possibly a pin or spacer.
- 16**: A small rectangular component, possibly a pin or spacer.
- 17**: A small rectangular component, possibly a pin or spacer.
- 18**: A small rectangular component, possibly a pin or spacer.

The diagram shows the relative positions and assembly sequence of these parts, with dashed lines indicating the alignment and movement of the components.

Figure 23C-3100

This diagram illustrates the assembly of a mechanical device, likely a door or panel. The components are numbered as follows:

- 1**: Main mounting bracket or frame.
- 2**: Small pin or screw.
- 3**: Cylindrical component, possibly a roller or guide.
- 4**: Cylindrical component, possibly a roller or guide.
- 5**: Flat rectangular panel.
- 6**: Thin strip or seal.
- 7**: Thin strip or seal.
- 8**: Small pin or screw.
- 9**: Small pin or screw.
- 10**: Small pin or screw.
- 11**: Small pin or screw.
- 12**: Small pin or screw.
- 13**: Small pin or screw.
- 14**: Small pin or screw.
- 15**: Small pin or screw.
- 16**: Small pin or screw.
- 17**: Long thin strip or seal.
- 18**: Curved metal plate or bracket.
- 19**: Small pin or screw.
- 20**: A collection of various small pins, screws, and washers.
- 21**: Small rectangular panel.
- 22**: Small pin or screw.
- 23**: Long rectangular panel.
- 24**: Long rectangular panel.
- 25**: Long rectangular panel.

Figure 23C-3500

This technical drawing is an exploded view of a mechanical assembly, likely a piece of furniture or a specialized container. It features 28 numbered components. The main structure consists of a large rectangular frame (1) with internal dividers (2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28). The components are shown in their relative positions as they would be assembled. Key parts include:

- 1**: The main outer frame.
- 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28**: Various internal dividers, supports, and fasteners.
- 11**: A small rectangular panel or insert.
- 12**: A small rectangular panel or insert.
- 13**: A small rectangular panel or insert.
- 14**: A small rectangular panel or insert.
- 15**: A small rectangular panel or insert.
- 16**: A small rectangular panel or insert.
- 17**: A small rectangular panel or insert.
- 18**: A small rectangular panel or insert.
- 19**: A small rectangular panel or insert.
- 20**: A small rectangular panel or insert.
- 21**: A small rectangular panel or insert.
- 22**: A small rectangular panel or insert.
- 23**: A small rectangular panel or insert.
- 24**: A small rectangular panel or insert.
- 25**: A small rectangular panel or insert.
- 26**: A small rectangular panel or insert.
- 27**: A small rectangular panel or insert.
- 28**: A small rectangular panel or insert.

Figure 24-900

This exploded view diagram illustrates the components of a car stereo unit. The main unit (1) is shown with its front panel, which includes a cassette slot, a volume knob, and a power switch. The front panel is secured by screws (2). A power cable (3) is connected to the rear of the unit. A speaker cable (4) is shown with its connectors (5) and a speaker (6). A remote control (7) is shown with its battery (8) and a small antenna (9). A speaker grille (10) is shown with its mounting brackets (11) and screws (12).

Figure 46-2200

This diagram illustrates the exploded view of a truck-mounted hydraulic crane assembly. The components are numbered as follows:

- 1**: Hydraulic cylinder
- 2**: Hydraulic hose
- 3**: Hose fitting
- 4**: Hydraulic hose
- 5**: Hose fitting
- 6**: Hydraulic hose
- 7**: Hose fitting
- 8**: Hydraulic hose
- 9**: Hose fitting
- 10**: Hydraulic hose

Figure 47-2100

This exploded view diagram illustrates the assembly of a two-piece plastic container. The main components are the upper half (1) and the lower half (2), which are shown in an exploded state to reveal their internal structures and how they interlock. The upper half (1) features a series of raised, wavy ridges on its interior base, while the lower half (2) has corresponding recessed areas. Various fasteners, including screws (e.g., 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27) and pins (e.g., 5, 6, 7, 8, 9, 10), are shown in their respective positions relative to the container halves. The diagram also shows the final assembled state of the container, with the upper half (1) and lower half (2) joined together, forming a complete unit (3). The exploded view highlights the internal components and the specific locations where the fasteners are used to secure the assembly.

Figure 47-2300

This diagram shows an exploded view of a mechanical assembly. The components are numbered as follows:

- 1**: A large, rectangular, rounded component, possibly a housing or a main body.
- 2**: A long, thin rod or pin with a cross-shaped end on the right.
- 3**: A small, curved component, possibly a lever or a bracket.
- 4**: A small, curved component, similar to 3.
- 5**: A small, curved component, similar to 3.
- 6**: A small, curved component, similar to 3.
- 7**: A small, curved component, similar to 3.
- 8**: A rectangular component with a grid of small holes, possibly a filter or a base plate.
- 9**: A circular component with a grid of small holes, possibly a filter or a base plate.
- 10**: A circular component with a grid of small holes, similar to 9.
- 11**: A long, thin, rectangular component, possibly a plate or a bracket.
- 12**: A small, curved component, similar to 3.
